Frozen Sweet Corn

Frozen sweet corn kernels for foodservice, prepared meals and food manufacturing.

Product / trade name	Frozen Sweet Corn
Variety / grade / form	Sweet corn kernels; IQF process and kernel grade to be confirmed
HS / HSN reference	071040 · indicative international six-digit reference
Origin	India; exact source and origin documentation to be confirmed
Quality parameters to agree	Kernel size, sweetness criteria, colour, tenderness, broken kernels, cob fragments, freezing process and microbial limits.
Packaging options to discuss	Sealed food-contact bags in export cartons; retail or foodservice pack sizes, net weight and pallet plan agreed per order.
Storage & handling	For quick-frozen products, plan storage and transport at -18 °C or colder with temperature monitoring. Agree the reefer set point, loading plan and shelf life with the supplier. Follow the product cooking instructions; do not refreeze after thawing.
Documentation scope	Confirm batch specification and analysis scope, traceability, origin and food-business documentation, temperature records and destination import and labelling requirements.
Minimum order quantity	Confirmed on enquiry for the exact product and destination
Lead time & availability	Confirmed after specification, sourcing and logistics review
Sample / inspection	Requirements, cost and timing to be agreed before the order

This is a product reference, not a batch certificate or a confirmed offer. Final specifications, packaging, availability, classification and destination requirements must be agreed in writing.
